PROXY STATEMENT

INFORMATION CONCERNING THE SOLICITATION

We are sending you these proxy materials in connection with the solicitation by the Board of Directors of Sonoco Products Company of proxies to be used at the Annual Meeting of Shareholders ("Annual Meeting") to be held on April 20, 2005, at 11:00 A.M. at The Center Theater, 212 North Fifth Street, Hartsville, South Carolina, and at any adjournment or postponement of the meeting. "We," "our," "us," "Sonoco" and "the Company" all refer to Sonoco Products Company. The proxy materials are being mailed on or about March 16, 2005.

Who May Vote

You will only be entitled to vote at the Annual Meeting if our records show that you held your shares on February 18, 2005. At the close of business on February 18, 2005, a total of 98,676,304 shares of Common Stock were outstanding and entitled to vote. Each share of Common Stock has one vote.

Voting by Proxy

If your shares are held by a broker, bank or other nominee, it will send you instructions that you must follow to have your shares voted at the Annual Meeting. If you hold your shares in your own name as a record holder, you may instruct the proxy agents how to vote your shares by completing, signing, dating and mailing the proxy card in the enclosed postage-paid envelope; by dialing the toll-free telephone number shown on your proxy card (if you live in the United States or Canada); or by accessing the Web site shown on your proxy card. Of course, you can always come to the meeting and vote your shares in person.

The proxy agents will vote your shares as you instruct. If you sign and return your proxy card without giving instructions, the proxy agents will vote your shares **FOR** each person named in this Proxy Statement as a nominee for election to the Board of Directors. The proxy agents will vote according to their best judgment on any other matter that properly comes before the Annual Meeting. At present, the Board of Directors does not know of any other such matters.

How to Revoke Your Proxy

You may revoke your proxy at any time before it is voted. If you are a record shareholder, you may revoke your proxy in any of the following ways:

- by giving notice of revocation at the Annual Meeting;
- by delivering to the Secretary of the Company, 1 North Second Street, Hartsville, South Carolina, 29550 USA, written instructions revoking your proxy; or
- by delivering to the Secretary an executed proxy bearing a later date.

Subsequent voting by telephone or via the Internet cancels your previous vote. If you are a shareholder of record, you may also attend the meeting and vote in person, in which case your proxy vote will not be used.

How Votes Will Be Counted

The Annual Meeting will be held if a majority of the outstanding shares of Common Stock entitled to vote (a “quorum”) is represented at the meeting. If you have submitted valid proxy instructions or attend the meeting in person, your shares will be counted for the purpose of determining whether there is a quorum, even if you wish to abstain from voting on some or all matters introduced. “Broker non-votes” also count in determining whether a quorum is present. A “broker non-vote” occurs when a broker, bank or nominee who holds shares for a beneficial owner attends the meeting in person or by proxy but does not vote on a particular proposal because the broker, bank or nominee does not have discretionary voting power for that proposal and has not received voting instructions from the beneficial owner.

If a quorum is present at the Annual Meeting, directors will be elected by a plurality of the votes cast by shares present and entitled to vote at the Annual Meeting. Votes that are withheld or that are not voted in the election of directors will have no effect on the outcome of election of directors. Cumulative voting is not permitted.

Approval of any other matter that may be brought before the meeting requires that the votes cast in favor of the matter exceed the votes cast against the matter. Votes that are withheld or shares that are not voted will have no effect on the outcome of such matters.

Cost of this Proxy Solicitation

We will pay the cost of this proxy solicitation. In addition to soliciting proxies by mail, we expect that some of our officers and regular employees will solicit proxies by telephone, fax, email or personal contact. None of these officers or employees will receive any additional or special compensation for doing this.

ELECTION OF DIRECTORS

At our Annual Meeting, six directors will be elected. Messrs. C. J. Bradshaw, R. J. Brown, J. L. Coker, and Paul Fulton have been nominated to hold office for the next three years, their terms expiring at the Annual Shareholders' meeting in 2008, or when their successors are duly elected and qualify to serve. Dr. P. S. Lewis, who was elected by the Board of Directors in July 2004 to fill the vacancy created by the resignation of Ms. D. D. Young, and Mr. J. E. Linville, who was elected by the Board of Directors in October 2004, have each been nominated to hold office for the next year. Their terms will expire at the Annual Shareholders' meeting in 2006, or when their successors are duly elected and qualify to serve. The proxy agents intend to vote **FOR** the election of the six persons named above unless you withhold authority to vote for all or any of the nominees. The Board of Directors recommends that you vote **FOR** each nominee for election.

DIRECTOR INDEPENDENCE POLICIES

Our listing agreement with the New York Stock Exchange requires that at least a majority of the members of our Board of Directors be independent. Under the Exchange's standards, "independent" means that a director has been determined by the Board to have no material relationship with Sonoco (either directly or as a partner, shareholder or officer of an organization that has a relationship with Sonoco). To assist us in making these determinations we have adopted the following guidelines.

A director will not be considered independent if:

- The director is, or in the past three years has been, an employee of Sonoco, or has an immediate family member who is, or in the past three years has been, an executive officer of Sonoco;
- The director is, or in the past three years has been, affiliated with or employed by, or has an immediate family member who is, or in the past three years has been, affiliated with or employed in a professional capacity by, a present or former auditor of Sonoco;
- The director is, or in the past three years has been, an executive officer, or has an immediate family member who is, or in the past three years has been, an executive officer of another company where any of Sonoco's present executives serves on that company's compensation committee;
- The director is, or in the past three years has been, an executive officer or an employee, or has an immediate family member who is, or in the past three years has been, an executive officer of another company that makes payments to, or receives payments from, Sonoco for property or services in an amount which, in any single fiscal year, exceeds the greater of \$1 million or 2% of such other company's consolidated gross revenues; or
- The director or an immediate family member (other than an immediate family member who is a non-executive employee) receives, or in the past three years has received, more than \$100,000 per year in direct compensation from Sonoco (other than director fees and pension or other forms of deferred compensation for prior service that is not contingent in any way on continued service).

The following relationships will not be considered to be material relationships that would impair a director's independence:

- Being an executive officer or an employee, or having an immediate family member who is an executive officer of another company that makes payments to, or receives payments from, Sonoco for property or services in an amount which, in any single fiscal year, is less than the greater of \$1 million or 2% of such other company's consolidated gross revenues.

Based on the criteria above and the New York Stock Exchange's independence standards, the Board of Directors has determined that the following directors, who constitute a majority of the Board, are independent:

C. J. Bradshaw, R. J. Brown, J. L. Coker, C. C. Fort, P. Fulton, B. L. M. Kasriel, E. H. Lawton, III, P. S. Lewis, J. E. Linville, H. L. McColl, Jr., J. M. Micali, J. H. Mullin, III, and T. E. Whiddon.

All of the members of the Audit Committee, the Corporate Governance and Nominating Committee, and the Executive Compensation Committee have also been determined to be independent under the preceding criteria.

MEETINGS OF NON-MANAGEMENT DIRECTORS

Our non-management directors meet at regularly scheduled executive sessions without management present. The presiding director for each meeting is elected by those directors in attendance at that meeting. Shareholders and other interested parties may communicate with the non-management directors by writing to Non-Management Directors, c/o Corporate Secretary, Sonoco Products Company, 1 North Second Street, Hartsville, SC 29550 USA.

CORPORATE GOVERNANCE GUIDELINES AND CODE OF BUSINESS CONDUCT AND ETHICS

We have adopted Corporate Governance Guidelines and a Code of Business Conduct and Ethics for directors, officers and employees. Copies of these governance guidelines and the Code of Business Conduct are available through our Web site at www.sonoco.com. Print versions are available to our shareholders on request.

BOARD COMMITTEES

During 2004, the Board of Directors held four regularly scheduled meetings and three special meetings to review significant developments affecting the Company and to act on matters requiring the Board of Directors' approval. To assist it in performing its duties, the Board of Directors has established the six committees discussed below.

All committees operate pursuant to written charters. The charters are available to shareholders through the Investor Relations page of our Web site at www.sonoco.com. These charters are also available in print to any shareholder who requests them. Each member of the Audit, Corporate Governance and Nominating, and Executive Compensation committees has been determined by the Board of Directors to be independent as defined in the New York Stock Exchange's listing standards as adopted in November 2004.

As shown above, the Corporate Governance and Nominating Committee recommends to the Board of Directors nominees to fill vacancies on the Board of Directors as they occur and recommends candidates for election as directors at Annual Meetings of Shareholders. Such candidates are routinely identified through personal and business relationships and contacts of the directors and executive officers.

In recommending candidates, the Corporate Governance and Nominating Committee evaluates such factors as it deems appropriate based on the Company's current needs. These factors may include diversity, age, skills such as understanding of appropriate technologies and general finance, decision-making ability, interpersonal skills, experience with businesses and other organizations of comparable size, and the

inter-relationship between the candidate's experience and business background and other Board members' experience and business background. Additionally, candidates for director should possess the highest personal and professional ethics, and they should be committed to the long-term interests of the shareholders.

The Corporate Governance and Nominating Committee will consider director candidates recommended by shareholders if the shareholders comply with the following requirements. If you wish to recommend a director candidate to the Corporate Governance and Nominating Committee for consideration as a Board of Directors' nominee, you must submit in writing to the Corporate Governance and Nominating Committee your recommended candidate's name, a brief resume setting forth the recommended candidate's business and educational background and qualifications for service, and a notarized consent signed by the recommended candidate stating the recommended candidate's willingness to be nominated and to serve. This information must be delivered to the Chairperson of the Corporate Governance and Nominating Committee at the Company's address and must be received no later than January 5 in any year to be considered by the Committee as a potential Board of Directors' nominee. The Corporate Governance and Nominating Committee may request further information if it determines a potential candidate may be an appropriate nominee. Director candidates recommended by shareholders that comply with these requirements will receive the same consideration that the Committee's other candidates receive.

Director candidates recommended by shareholders will not be considered by the Corporate Governance and Nominating Committee for election at an annual meeting unless the shareholder recommendations are received no later than January 5 of the year of the meeting. In addition to making such recommendations, shareholders have the right to nominate candidates for election as directors at an annual meeting if they make a written nomination at least 60 days prior to the meeting. Any such nomination should be submitted to the Company's address. No such nominations have been made for this Annual Meeting.

During 2004, all directors attended 75% or more of the aggregate number of meetings of the Board of Directors and committees of which they were members, except Mr. Brown and Mr. McColl.

The Company encourages, but does not require, its directors to attend the Annual Meeting of Shareholders. In 2004, thirteen of fourteen directors attended the Annual Meeting.

DIRECTORS' COMPENSATION

Employee directors do not receive any additional compensation for serving on the Board of Directors. Non-employee directors were paid a \$12,500 quarterly retainer and a fee of \$1,500 for each Board of Directors and committee meeting attended. Committee chairpersons received an additional \$500 per committee meeting. Effective July 1, 2004, the Audit Committee Chairperson began receiving a committee chair retainer of \$1,250 per quarter.

Directors may elect annually to defer part or all of their retainer and meeting fees. Directors can choose to have their deferrals earn interest credits at a market rate (the Merrill Lynch Ten-Year High Quality Bond Index) or be treated as if invested in equivalent units of Sonoco Common Stock (which are credited with reinvested dividend equivalents). Alternatively, directors can elect to receive stock options under the 1996 Non-Employee Directors' Stock Plan (the "Directors' Plan") instead of receiving any part of their cash compensation. If a director chooses this alternative, he or she will receive an option to purchase four dollars worth of Common Stock at the fair market value of the Common Stock on the date the option is granted for each one dollar of cash compensation the director chooses not to receive. During 2004, two directors received the following number of stock options instead of cash compensation: E. H. Lawton, III — 8,379 shares and R. J. Brown — 2,378 shares.

Under the Directors' Plan, at the first regularly scheduled meeting of the Board of Directors during a calendar year, each non-employee director is granted an option to purchase 4,000 shares of Common Stock at a price equal to the fair market value as of the date the options are granted. Any person who later becomes a non-employee director also receives an option to purchase shares of Common Stock at the fair market value of the Common Stock on the date the option is granted. The number of shares for which options are granted is reduced 25% for each full quarter of the calendar year during which the person did not serve as a non-employee director. During 2004, each non-employee director, except for Dr. Lewis and Mr. Linville, received an option covering 4,000 shares. Dr. Lewis joined the Board on July 28, 2004 and received an option covering 2,000 shares. Mr. Linville joined the Board on October 18, 2004 and received an option covering 1,000 shares. Effective with the first Board of Directors' meeting in 2005, the annual non-employee director's stock option grant was increased to 5,000 shares in accordance with the terms of this plan. Option shares are immediately vested but may not be exercised until one year after the grant date.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

Members of the Executive Compensation Committee during the year ended December 31, 2004 were:

C. J. Bradshaw, Paul Fulton, B. L. M. Kasriel, H. L. McColl, Jr. and J. H. Mullin, III

Mr. Fulton is a director of Bank of America Corporation. During the third quarter of 2004, a Bank of America subsidiary managed the syndication and participated as agent to provide a five-year committed revolving line of credit for \$350,000,000 to support our commercial paper program and for general corporate purposes. Bank of America's commitment to this facility is \$36,000,000. A committed line of credit from Bank of America has been in place since 1987 and has been renewed, amended and increased

or decreased according to our needs. Bank of America has extended other lines of credit to us as support for letters of credit, overdrafts and other corporate needs. It also provides treasury management services to us. We pay fees to the bank for these services and for the availability of the lines of credit, as well as interest on any borrowed funds.

All transactions were handled on a competitive basis. Management believes that the rates and provisions were as favorable to us as we could have obtained from similar sources.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Mr. C. W. Coker and Mr. Paul Fulton are directors of Bank of America Corporation. See “Compensation Committee Interlocks and Insider Participation” for information about our transactions with Bank of America.

Mr. R. J. Brown is a director of Wachovia Corporation. Wachovia Bank, N.A., a subsidiary of Wachovia Corporation, committed \$36,000,000 to the revolving line of credit syndicated by Bank of America to support our commercial paper program and for general corporate purposes. Wachovia Bank, N.A. also provides other lines of credit to support stand-by letters of credit, and it provides trustee services. We pay fees to Wachovia Bank, N.A. for the availability of the credit lines and for the trustee services, as well as interest on any borrowed funds.

Our management believes the prices and terms of the transactions reported above were comparable to those we could have obtained from other sources. We anticipate engaging in similar business transactions in 2005. The Board of Directors considered these relationships when making its determinations of independence.

Mr. C. W. Coker was paid a bonus of \$350,000 in 2005 for services provided to the Company in 2004 as calculated under his approved 2004 incentive formula.

In light of Mr. Coker’s pending retirement as a director and his expected continued availability for consulting, at its February 2005 meeting the Executive Compensation Committee of the Board of Directors agreed to provide Mr. Coker with ongoing secretarial assistance and use of an office as well as use of the corporate aircraft for up to 50 hours a year for five years. In return, Mr. Coker will reimburse the Company for the variable operating costs related to his personal usage of the aircraft.

During 2004 the Company employed family members of two directors of the Company. Those whose compensation exceeded \$60,000 were Charles W. Coker, Jr., Division VP/General Manager of the Protective Packaging Division, Thomas L. Coker, Division VP/General Manager of the Flexible Packaging Division, and Robert H. Coker, Division VP/Sales & Marketing of the Rigid Paper and Plastics Division, sons of Charles W. Coker, Chairman of the Board. Their earnings for 2004 were \$288 thousand, \$235 thousand and \$231 thousand, respectively. John W. DeLoach, Plant Manager in the Recovered Paper Division and Harris E. DeLoach, III, also Plant Manager in the Recovered Paper Division, sons of Harris E. DeLoach, Jr., President and CEO, had earnings for 2004 of \$71 thousand and of \$64 thousand, respectively. Each of these employees also received the usual employee benefits available to all employees at their levels.

On April 15, 2003, the Board of Directors adopted a resolution establishing stock ownership guidelines for outside directors. The guidelines establish a target level of ownership of Sonoco Products Company Common Stock based on years of service as a director from the date the guidelines were established. The guidelines are as follows: 3,000 shares, 5,000 shares and 8,000 shares after two, four and six years of service, respectively.

EXECUTIVE COMPENSATION COMMITTEE REPORT TO SHAREHOLDERS

The purpose of the Executive Compensation Committee (the “Committee”) is to discharge the responsibilities of the Board of Directors of Sonoco Products Company (the “Company”) relating to compensation of the Company’s executive officers by overseeing the administration of the Company’s executive officer compensation programs relating to salaries, incentives, benefits and perquisites, establishing the compensation for the Chief Executive Officer (“CEO”) and all other executive officers, and preparing any reports on executive compensation required by the rules and regulations of the Securities and Exchange Commission. In addition, the Committee reviews top management succession and development plans. The basic duties and responsibilities of the Committee are outlined on page 17 of this proxy statement.

The Committee consists entirely of independent directors who are not officers, employees or former employees of the Company. In accordance with its charter, the Committee engages an independent compensation consultant to advise the Committee on compensation matters related to the CEO and other executive officers. The Committee met three times during 2004, and has met one time in 2005, as of the printing of this report.

Philosophy

The executive compensation program consists of base salary, annual cash bonus opportunities, and long-term incentives, which include stock options and performance contingent restricted stock units. The program has been designed to attract, motivate, reward and retain senior management by providing competitive total compensation opportunities based on performance, leadership, teamwork and the creation of shareholder value.

In order to determine competitive compensation levels, the Company annually participates in a number of national surveys conducted by independent consulting firms. These surveys cover a large number of similar positions across American industry. Where possible, the Company matches its corporate officer positions to survey data for companies with sales in the \$1 billion to \$5 billion range. Likewise, division officer positions are matched to a comparable division revenue range. From these surveys, executive compensation levels for base salaries, total cash compensation (“TCC”), which consists of base salary plus annual target bonus, and total direct compensation (“TDC”), which is comprised of TCC plus long-term incentives, are developed. Periodically the Company contracts with independent consulting firms to perform customized compensation studies of companies in its industry group and/or of companies similar in size.

Base salary midpoints are targeted to be at the median (50th percentile) of the surveyed market. To provide greater emphasis on the performance-based variable pay components of the program, incentive pay (consisting of annual cash bonuses, annual stock option awards, and performance contingent restricted stock units) is calibrated to provide a total compensation package at the 75th percentile of the survey data described above. Actual compensation at the 75th percentile will be achieved only if challenging goals and longer-term increases in shareholder value are achieved. The variable portion of the TDC program is

leveraged so that, if performance targets in these measures are not met, actual total compensation for individual executive officers will normally fall below the survey median for their positions.

In further support of the Company's pay-for-performance philosophy, executive perquisites are limited and provide a lower level of benefits than the market median. Some of the more common perquisites in industry that the Company does not make available to its executive officers include country club memberships, company cars or drivers, metropolitan city apartments, vacation retreats, executive dining services or reserved parking.

In the past, the benefits program consisting of a Supplemental Executive Retirement Plan ("SERP") and split-dollar life insurance has provided a benefit that was higher than the market median. This benefits program, in particular the split-dollar life insurance program, was designed to enhance retention of executives until normal retirement age, at a modest long-term net cost to the Company. Recent regulatory changes make this form of executive life insurance no longer viable or cost-effective. The Company has taken actions to convert the split-dollar agreements into permanent life insurance policies in order to meet its executive life insurance obligations for current officers, but the life insurance benefit for future officers has been significantly reduced and consists of term insurance in line with the industry median.

To evaluate the competitiveness of the executive compensation program, each year at its April meeting the Committee reviews the total compensation package for each officer. This includes a summary sheet showing a history of base salary adjustments, bonus awards and total cash compensation for the last ten years (or term as an officer, if less), stock options outstanding and the option price, vested and unvested restricted stock units, projected annual pension at age 65 and the amount of executive life insurance coverage.

The Committee has taken, and it intends to continue taking, steps necessary to assure the federal tax deductibility of compensation realized by senior executives. However, to the extent that such steps would not be practical or would not be consistent with the Committee's compensation objectives, there is the possibility that future compensation in some circumstances may not meet tax deductibility requirements.

The following sections of this report include a discussion of each element of the executive compensation program. In each section we, the Committee, are providing a description of the actions we have taken with regard to 2004 executive compensation and the rationale for those actions. More specifically we will discuss our decisions regarding the compensation of Mr. DeLoach for performing the duties of President and CEO of the Company. The tables, accompanying narrative and footnotes which follow this report reflect the decisions covered by the discussions below.

Stock Ownership Guidelines

To emphasize the importance of linking executive and shareholder interest, in 2003 the Board of Directors adopted stock ownership guidelines for executive officers. The target level of ownership of Sonoco Products Company stock (or Common Stock equivalents) is established as a fixed number of shares. The target level for the CEO is 140,000 shares. The target for Senior Vice Presidents is 24,000 shares, and the target for other officers is 7,000 shares. Each employee subject to the guidelines is expected to achieve the ownership target within five years from the date on which the employee became

subject to the guidelines. Common stock held in the Sonoco Savings Plan, stock equivalents earned through non-qualified deferred compensation programs, time vesting restricted stock which vests within five years, and any other beneficially owned shares of common stock are included in determining compliance with the guidelines. Shares that executives have the right to acquire through the exercise of stock options are not included in the calculation of stock ownership for guideline purposes. As of the printing of this report, the CEO and all other officers met the above ownership guidelines.

Base Salary

The Company's salary ranges and market prices for all salaried positions, including the CEO and other executive officers, are based on the combination of (1) a structured job evaluation system (for internal and external relativity) and (2) a market pricing system which matches individual jobs to independent salary surveys (for external competitiveness). This process places a relative value on the duties and responsibilities of each position.

Each year the Committee reviews the base salary of all senior executives, including Mr. DeLoach and the other executive officers named in the Summary Compensation Table (the "NEO's"), at its April meeting. The total amount of merit increases for the officer group as a whole takes into account survey data as to the projected salary movement for executive positions during the calendar year, the average wage increase being given to other classes of employees within the Company, and the current economic environment in which the Company is operating. Individual merit increase awards are based on each executive's performance in his or her position during the past year, and the relationship of his or her current salary to market. The Committee used these criteria to determine salary adjustments for the CEO and for each of the executive officers in 2004.

In 2004, the Committee awarded Mr. DeLoach a merit increase of 5.0% based on its evaluation of his performance and an upward movement of 3.6% in the competitive market price for his position. With this increase, his salary equated to 102% of the 2004 market price for his position.

The four other NEO's (Messrs. Sullivan, Holley, Bowen and Hupfer) were awarded merit increases ranging from 2.9% to 5.0%, and averaging 4.0%. As a group their salaries equate to 100% of the 2004 competitive market median.

These awards compare to an average upward movement of 4.1% of salaries for the Company's entire U.S.-based salaried population in 2004.

Annual Bonus Awards

In 2002, the Board of Directors adopted and the shareholders approved The Performance Based Annual Incentive Plan for Executive Officers (the "Plan"). Under the terms of this Plan, a maximum of 2.75% of Income from Operations as defined in the Plan was established as an incentive pool fund for the CEO and the four named executive officers in the proxy. For 2004, this maximum bonus pool exceeded the amount of bonus awards made by the Committee to these participants. Actual awards made by the Committee are based on Company and individual performance (as described below) within the performance-based maximum.

During 2004, the Company's stock price appreciated by over 20% and total shareholder return was over 24%. These improvements were primarily due to decisive action that management took in prior years and in 2004 to reposition the Company to meet a significantly changed business environment of the last few years, to take advantage of improving economies in countries where the Company has business interests, and to meet the new challenges in the marketplace of today and tomorrow. As in prior years, the Company's 2004 performance-based incentive opportunities were structured to reward growth of profitable sales, maximization of cash flow, increased productivity and reductions in cost, as well as finalizing strategic acquisitions or joint ventures. These are the factors the Committee feels have led to the significant increase in total shareholder return during 2004.

Specifically, for 2004, financial performance goals were weighted from 80% to 90% of total bonus opportunity. For senior executives with corporate responsibility, 75% of the Plan's financial goals were based on corporate earnings per share and the remainder on revenue growth. For executives with business unit responsibility, 25% of the bonus opportunity available for financial performance was based on business unit revenue growth, 56.25% on business unit profit, and 18.75% on corporate earnings per share.

High impact personal performance objectives for 2004 were established for each officer and were weighted at 20% of salary (or 20% to 10% of total bonus opportunity).

On February 1, 2005, the Committee reviewed and approved the 2004 annual bonus awards for executive officers. Mr. DeLoach's bonus was based on predetermined targets in the financial measures cited above and the Committee's assessment of his achievement in meeting his predetermined high-impact objectives.

As shown under the "Bonus" caption in the Summary Compensation Table on page 33, Mr. DeLoach's bonus increased by \$1,080,268 (164%) over the prior year. Approximately 80% of this bonus increase reflected an approximate \$50,000,000 increase in net income from continuing operations, excluding restructuring expense, for the Company. Approximately 20% of this bonus increase reflected a 10% increase in revenue (excluding divestitures and significant acquisitions). The amount of bonus awarded for completion of personal objectives was comparable for both years.

For the other four NEO's, bonus increases ranged from 160% to 193% over the prior year and reflect the same improved corporate financial performance as cited for Mr. DeLoach.

Mr. C. W. Coker was paid a bonus of \$350,000 in 2005 for services provided during 2004 as calculated under his approved incentive formula.

Long-Term Incentive Plan

The Company's Long-Term Incentive Plan (LTIP) is designed to encourage and reward the creation of long-term value for shareholders.

The Company's LTIP is comprised of two components: non-qualified stock options (NQSO) and performance-contingent restricted stock units (RSU).

In 2004, the Committee shifted the balance in the two components for the officer group. The total number of stock options available for grants to officers was reduced by 48%. This was offset by an increase in the number of performance contingent restricted stock units awarded. At target, this results in an overall mix in the officers' LTIP of 25% NQSO and 75% RSU. The exchange ratio in making the shift was one RSU for five NQSO (1:5). This action is in keeping with trends in executive compensation and is generally viewed favorably by institutional and individual investors. Furthermore, the exchange ratio approved by the Committee is considered conservative in that many companies making this shift have used more aggressive exchange ratios of 1:4 or less.

This change will emphasize the importance of Company performance in both total shareholder return and earnings per share growth. In addition, this shift will enhance the retention component in the Company's officer compensation program, limit dilution and promote stock ownership.

In the valuation of equity grants under the LTIP, the Committee uses the Binomial Option Pricing Model to value stock options, and uses the market value of Sonoco stock to value restricted stock units. The RSU calculations assume a constant stock price to avoid year to year, purely price related fluctuations, in the number of shares granted.

To determine the target number of equity shares to be awarded to the officer group under the LTIP, the Committee looks at the TDC target for each officer position. The base salary median and the target annual bonus are subtracted to arrive at the target dollars available for the long-term component of the compensation plan. These dollars are then converted to shares of NQSO and RSU based on the 25%/ 75% mix described above.

Stock Options

Under a plan previously approved by the Company's shareholders, the Committee approved 2004 NQSO grants to 938 key employees, including Mr. DeLoach and the other executive officers. The price of these options was set at the closing market price on the date of grant. Accordingly these options will be valuable to the recipients only if the market price of the Company stock increases. Stock options for Mr. DeLoach and the other named officers are included in the Summary Compensation Table on page 33, under the caption "Number of Securities Underlying Options Granted" and in the Options Grants in Last Fiscal Year table on page 36. Mr. DeLoach's target grant was calculated by the formula described above. The actual number of stock options granted to Mr. DeLoach and the other officers was based on the Committee's assessment of their relative performance.

Performance Contingent Restricted Stock Units

In 2004, the Committee approved RSU grants to 26 executives, including Mr. DeLoach and the other NEO's under a shareholder approved stock plan. These are shown in the "Long-Term Incentive Plans – Awards in the Last Fiscal Year" table on page 34. The number of share units granted to each individual was based on their target shares as described previously and adjusted upward or downward from target based on the Committee's judgment of the individual's performance.

The award to Mr. DeLoach reflects his leadership in achieving a significant improvement in financial performance for the Company in 2004, and successful completion of one major acquisition and a strategic joint venture.

As described in detail on page 34, the number of these restricted share units that will vest is dependent on cumulative EPS and average return on net assets employed (RONAE) for the three-year performance period. To enhance the retention factor, the plan provides that if less than 50% of a participant's target shares vest at the end of the three-year performance period, the remainder of that 50% of target shares will time vest after five years, subject to the participant's continued employment for that period. Except for death, disability, or retirement other than for cause, termination of a participant's employment prior to vesting will result in forfeiture of any award. Executives are expected to hold any shares that vest until retirement.

Perquisites

As mentioned in the Committee's "Philosophy" statement, perquisites for Corporate officers are very modest.

Corporate officers are allowed an annual financial planning/tax assistance allowance of up to 2% of base salary or \$5,000 (whichever is greater).

Corporate officers may occasionally use the Company's aircraft for personal travel. This use is valued at the "Aggregate Incremental Cost" to the Company, and was less than \$30,000 in 2004 for the officer group as a whole.

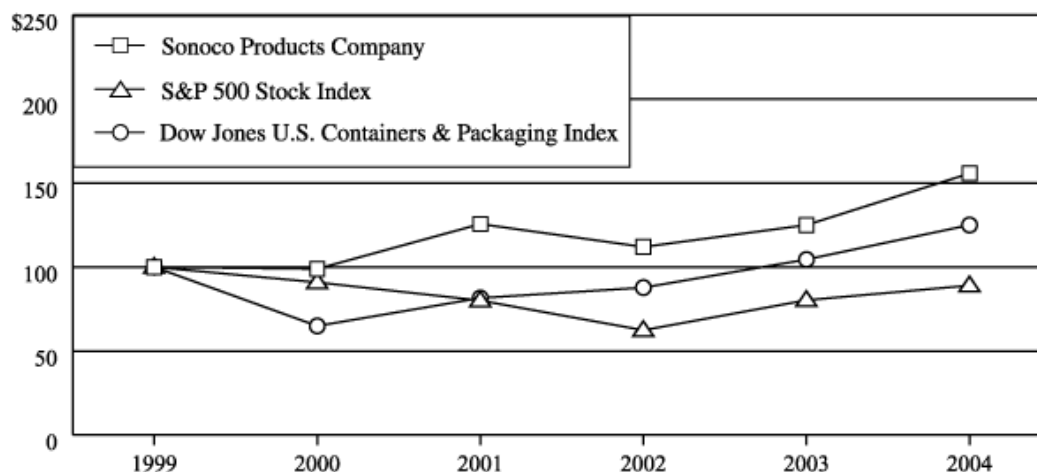

At its meeting in February 2005, the Committee took action in light of Mr. Charles W. Coker's pending retirement as director in May 2005. In recognition of Mr. Coker's over forty-seven years of service with the Company and his expected continued availability for consulting, the Committee agreed to provide him with the ongoing use of secretarial assistance and an office as well as the use of the corporate aircraft for up to 50 hours per year for five years. In turn, Mr. Coke will reimburse the Company for the variable operating costs related to this personal usage of the aircraft.

Awards are made in the form of contingent Company share units. The vesting of awards is tied to growth in earnings (cumulative EPS) and improved capital effectiveness (average RONA) over a three-year period as described in the Compensation Committee's Report that begins on page 26. Both measures are exclusive of the impact of year-to-year change in pension expense (income), net of normal service cost measures. For two-thirds of the designated shares, threshold vesting is earned if three-year cumulative EPS is 95.57% of target, and maximum vesting is earned if three-year cumulative EPS is 110.26% or more of

target. For the remaining one-third of designated shares, three targets have been established for average RONAE, depending on the amount of capital the Company invests in acquisitions during the three-year performance period. For the RONAE targets, threshold vesting is earned if three-year average performance is from 94.44% to 95.00% of target, and maximum vesting is earned if three-year average performance is from 105.00% to 105.56% of target. For all measures, the target shares vest when performance is 100% of target. If less than 50% of the target number of stock units vest at the end of the three-year performance period, the remainder of that 50% of target stock units will vest after five years (December 31, 2008).

PENSION PLAN TABLE

Named executive officers participate in a non-contributory defined benefit supplemental executive retirement plan program which provides for a maximum annual lifetime retirement benefit equal to 60% of final average compensation computed as a straight life annuity, based on the highest three of the last seven calendar years. In order to receive the full benefit, the executive must have at least 15 years of service and retire no earlier than age 65. Eligible spouses (married one year or longer at the executive's retirement date) receive survivor benefits at a rate of 75% of the benefit paid to the executives. The total benefit provided by the Company is offset by 100% of primary U.S. Social Security.

AUDIT COMMITTEE REPORT

The Audit Committee of the Board of Directors has reviewed and discussed with management and our independent auditors PricewaterhouseCoopers LLP (“PricewaterhouseCoopers”) our audited financial statements for the year ended December 31, 2004. The Audit Committee has discussed with PricewaterhouseCoopers the matters required to be discussed by Statement on Auditing Standards No. 61, as amended, (“Communication with Audit Committees”) and PCAOB Auditing Standard No. 2, (“An Audit of Internal Control Over Financial Reporting Performed in Conjunction with an Audit of Financial Statements”). The Committee has also reviewed the services provided by PricewaterhouseCoopers discussed below and has considered whether provision of such services is compatible with maintaining auditor independence.

During the year 2004, management completed the documentation, testing and evaluation of the Company’s system of internal control over financial reporting in response to the requirements set forth in Section 404 of the Sarbanes-Oxley Act of 2002 and related regulations. The Audit Committee was kept apprised of the progress of the evaluation and provided oversight and advice to management during the process. In connection with this oversight, the Committee received periodic updates provided by management and PricewaterhouseCoopers at each regularly scheduled Committee meeting. At the conclusion of the process, management provided the Committee with a report on the effectiveness of the Company’s internal control over financial reporting. The Committee also reviewed the report of management contained in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2004 filed with the SEC, as well as PricewaterhouseCoopers’ Report of Independent Registered Public Accounting Firm (included in the Company’s Annual Report on Form 10-K). This report related to its audit of (i) the consolidated financial statements, (ii) management’s assessment of the effectiveness of internal control over financial reporting and (iii) the effectiveness of internal control over financial reporting. The Committee continues to oversee the Company’s efforts related to its internal control over financial reporting and management’s preparations for the evaluation in fiscal 2005.

Based on the review and discussions referenced above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in our Annual Report on Form 10-K for the year ended December 31, 2004, for filing with the SEC.

SHAREHOLDER COMMUNICATIONS WITH THE BOARD OF DIRECTORS

Any shareholder who wishes to send communications to any member of the Board of Directors should mail them addressed to the intended recipient by name or position in care of: Corporate Secretary, Sonoco Products Company, 1 North Second Street, Hartsville, SC 29550 USA. Upon receipt of any such communications, the Corporate Secretary will determine the identity of the intended recipient and whether the communication is an appropriate shareholder communication. The Corporate Secretary will send all appropriate shareholder communications to the intended recipient. An “appropriate shareholder communication” is a communication from a person claiming to be a shareholder in the communication the subject of which relates solely to the sender’s interest as a shareholder and not to any other personal or business interest.

In the case of communications addressed to the Board of Directors, the Corporate Secretary will send appropriate shareholder communications to the Chairperson of the Corporate Governance and Nominating

Committee. In the case of communications addressed to the independent or non-management directors, the Corporate Secretary will send appropriate shareholder communications to the Chairperson of the Corporate Governance and Nominating Committee. In the case of communications addressed to committees of the Board, the Corporate Secretary will send appropriate shareholder communications to the Chairperson of such committee.

The Corporate Secretary is required to maintain a record of all communications received that were addressed to one or more directors, including those determined not to be appropriate shareholder communications. Such record will include the name of the addressee, the disposition by the Corporate Secretary and, in the case of communications determined not to be appropriate, a brief description of the nature of the communication. The Corporate Secretary is required to provide a copy of any additions to the record to the Chairperson of the Corporate Governance and Nominating Committee quarterly.
